Building 1 - Commissioning Services

Project Number 654-083

Estimated Price Range Between \$250K and \$500K

Contracting Officer e-mail Ronald.Ferrer@va.gov

Project Description

Commissioning Services for Reno Project. The Reno project proposes to completely renovate Building 1, consisting of 138,007 gross square feet (GSF) of space, by seismically correcting the building as well as correcting all facility condition assessment (FCA) deficiencies. In addition, this project will construct a clinical expansion of up to approximately 100,000 square feet to modernize clinical services and research capabilities.
