TITLE OF DOCUMENT:

Space Planning Criteria, Chapter 286: Surgical/Endovascular Service

DATE OF VERSION BEING SUPERSEDED (old):

October 1, 2021

DESCRIPTION OF DOCUMENT (previous title, number, other identifying data):

Space Planning Criteria, Chapter 286: Surgical and Endovascular Services

SUMMARY OF CHANGES IN THIS VERSION:

1. Section 2 - Definitions: the language of the Definitions standardization has been updated and coordinated across all Chapters for those Definitions that apply to multiple Chapters.
2. Section 3 – Operating Rationale: The Operating Rationale has been updated to reflect a standard approach in defining the Operating Rationale for each Chapter.
3. Section 4 – Input Data Statements (IDS): no change from previous version.
4. Section 5 – Space Criteria: No change made from previous version. No technical changes were made to how the criteria generates space.
5. Section 6 – No change
6. Section 7 – Functional Relationships: minor updates to the matrix structured and relationships were made to provide a common approach to all Space Chapters.
7. Section 8 – Functional Diagram: No change

TITLE OF DOCUMENT:

Space Planning Criteria, Chapter 286: Surgical/Endovascular Service

DATE OF VERSION BEING SUPERSEDED (old):

November 1, 2016

DESCRIPTION OF DOCUMENT (previous title, number, other identifying data):

Space Planning Criteria, Chapter 286: Surgical and Endovascular Services

SUMMARY OF CHANGES IN THIS VERSION:

1. Section 2 - Definitions: the language of the Definitions has been standardized across all Chapters for those Definitions that apply to multiple Chapters.
2. Section 3 – Operating Rationale: The Operating Rationale has been updated to reflect a standard approach in defining the Operating Rationale for each Chapter.
3. Section 4 – Input Data Statements (IDS): the number of IDS has been reduced due to a change in process that now pre-determines ranges (smallest to largest) of workload, staffing, and mission.
4. Section 5 – Space Criteria: Format change to criteria statements for each space. No technical changes were made to how the criteria generates space.
5. Section 6 – No change
6. Section 7 – Functional Relationships: the matrix was restructured and relationships reassessed to provide a common approach to all Space Chapters.
7. Section 8 – Functional Diagram: No change
