TITLE OF DOCUMENT:
Elevator Design Manual

DATE OF VERSION BEING SUPERSEDED (old):
July 1, 2017

DESCRIPTION OF DOCUMENT (previous title, number, other identifying data):
Elevator Design Manual

SUMMARY OF CHANGES IN THIS VERSION:
1.0 General Requirements Section 1.0 E.

E. “NFPA 101 primarily addresses life safety and fire protection features while the IBC addresses a wide range of considerations, including, but not limited to, structural strength, stability, sanitation, adequate light and ventilation, and energy conservation. VA buildings must meet the requirements of NFPA 101 and documents referenced by NFPA 101 in order to comply with the accreditation requirements of The Joint Commission. Therefore designs shall comply with the requirements of the latest edition of NFPA 101 and documents referenced therein. Design features not addresses by NFPA 101 or documents referenced therein shall comply with the requirements of the latest edition of the IBC or as otherwise addressed in this Design Manual. For design features that are addressed by both the IBC as well as NFPA 101 or a document referenced by NFPA 101, the requirements of NFPA 101 or the document referenced by NFPA 101 shall be used exclusively (this applies even if the IBC requirements are different).

Should a conflict exist between VA requirements and VA adopted nationally recognized codes and standards, the conflict shall be brought to the attention of the VA. The resolution of conflict shall be made by the authority having jurisdiction for the VA to ensure a consistency system wide.”

Also includes Elevator Certificate Card form at the end of the document.
