Chapter 265: Outpatient / PACT Clinic

DATE OF VERSION BEING SUPERSEDED (old):

June 1, 2006

DESCRIPTION OF DOCUMENT (previous title, number, other identifying data):

Chapter 265: Outpatient Clinic

SUMMARY OF CHANGES IN THIS VERSION:

1. The new Chapter 265 is a complete revision to the former Outpatient Clinic Chapter to reflect PACT planning and design standards. This new Chapter is based on the CBOC Prototype Study (conducted by CFM and is posted on the TIL) and provides for basic Outpatient Clinic functions for clinics containing 4, 8 and 12 PACT Teamlets. The space criteria in this Chapter can be scaled up or down, manually, to address Outpatient Clinics that contain PACT Teamlet quantities that lie between these 3 size ranges and to address specific care delivery features anticipated for a particular facility.
